

INSTRUCTIONS: Whirligig

YOU WILL NEED:

- This printable whirlygig pattern template
- String
- Piece of cardboard or foam core
- Gluestick
- Scissors or x-acto knife
- Kitchen skewer—something to poke small holes through cardboard centers

STEP 1

Choose which two patterns you'd like to use then print and cut out your templates.

STEP 2

Glue one piece onto the cardboard, cut around it with the scissors or x-acto knife. Then glue the second pattern onto the reverse side.

STEP 3

Poke two small holes in the whirlygig with the kitchen skewer, thread the string through and tie the string into a knot.

STEP 4

Now whirl and twirl away!
