

INSTRUCTIONS: DIY Friendly Lovey Dovey Puppets

We love crafts that are so much easier than they look! All this one requires is a few scraps of felt, a couple of buttons, two googly eyes, glue, embroidery thread and a needle.

INSTRUCTIONS:

Using the pattern below, **Cut:**

4 body pieces from gray felt

4 wings

2 darker gray wings

2 dark gray chest pieces

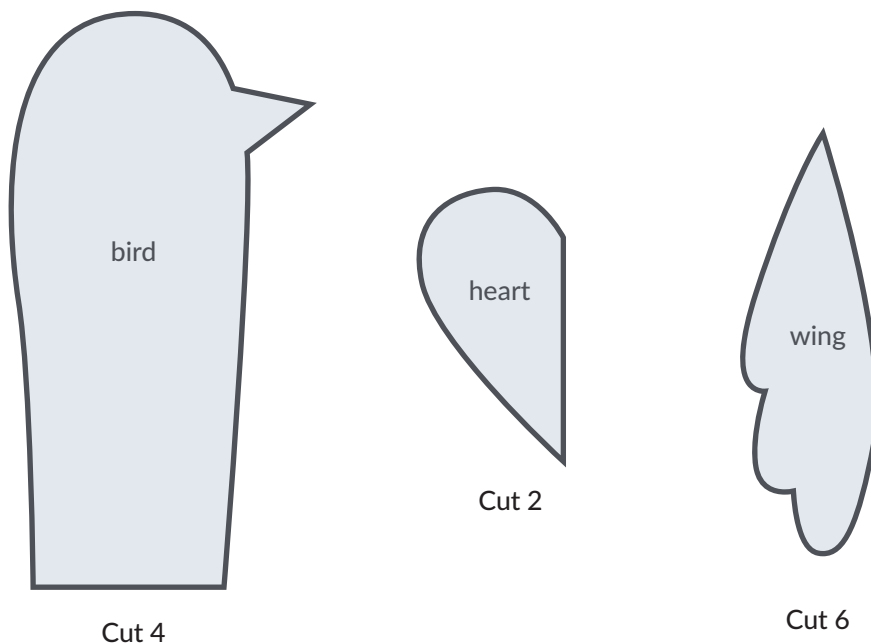

Lay the body pieces so you have a left facing dove and a right facing dove.

Chest: "Heart": Lay the chest pieces onto each dove so they line up and make a "heart". Handstitch the chest to the top layer of felt on each of the dove top body pieces.

Wings: Lay out the left side wings so they are staggered but connected at the top. Place the wings onto the front left dove and stitch in place, securing with a button at the top. Repeat with the right facing dove.

Body: For the left facing dove, lay your top body onto bottom felt body and pin. Using a blanket stitch, sew all around, leaving the opening at the bottom for a finger! Repeat for the right facing dove. Glue on eyes.

Done! This project takes about 30 minutes.
