

# INSTRUCTIONS: Alebrije Gliders

## YOU WILL NEED:

- These alebrije glider cut-outs
- Card stock, construction paper or other sturdy paper.
- Scissors or x-acto knife
- Tape/glue
- Paint

## STEP 1

Print the glider pages; make sure “fit to page” is checked in the print dialog box to ensure nothing is cut off during printing.

## STEP 2

Carefully cut out desired animal pieces; have fun mixing and matching! Trace onto sturdier paper and then cut out. If your paper is somewhat flimsy, trace 2 copies of the body and adhere them together to create a thicker, sturdier body.

## STEP 3

Paint your glider pieces and allow to dry. Cut slits into the body and tail along the dashed lines.

## STEP 4

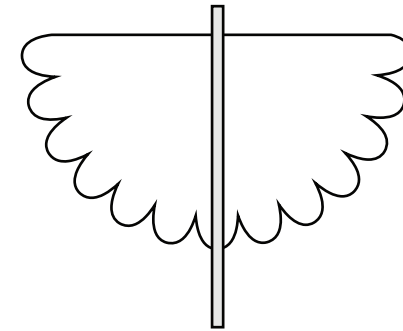

Place the wings on a flat surface then glue or tape the glider body down the middle of the wings.

## STEP 5

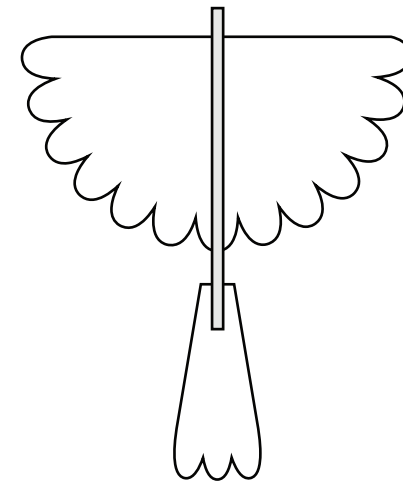

Finally, just slide the body and tail pieces together through the slits.

Your alebrije glider is complete!

## STEP 4

## STEP 5
